

非侵入性產前 Y 染色體檢測

Non-invasive Prenatal Y Chromosome Test

報告編號 Report No.
Y241125002

姓名 Name : 趙煌 病歷號碼 Patient No : N/A
出生日期 DOB(DD/MM/YYYY) : 29/03/1993 樣本送檢日期 Submission Date : 25/11/2024
身份證/護照號碼 ID/Passport No : 360428199303290043
懷孕週數 Gestation : 6 Weeks 0 Day(s) 超聲波日期 Ultrasound Date : 22/11/2024
胎兒數目 Pregnancy : 單胎 Singleton 報告日期 Report Date : 25/11/2024
醫生 Doctor : Dr. Zhou 診所 Clinic : Dr. Zhou

非侵入性產前 Y 染色體檢測採取懷孕婦女週邊血，利用血漿中游離的 DNA 進行分析，來偵測是否胎兒 Y 染色體的狀況。此方法檢測率不低於 99.99%，假陽性小於 0.01%。

The Non-Invasive Prenatal Y Chromosome Test screens fetal DNA in maternal blood for Y chromosome with the following methodology:

1. Extracts the cell free fetal DNA from the maternal blood sample
 2. Screens the extracted fetal DNA using real time polymerase chain reaction
 3. Detects the Y chromosome-specific region markers of fetal DNA in maternal circulation.
- This test confers an accuracy no less than 99.99% with less than 0.01% false positive rate.

檢測結果 Conclusion:

Positive = 陽性 ; Negative = 陰性

Marker	結果	Marker	結果	Marker	結果	Marker	結果	Marker	結果
M-1	Positive	M-9	Positive	M-17	Positive	M-25	Positive	M-33	Positive
M-2	Positive	M-10	Positive	M-18	Positive	M-26	Positive	M-34	Positive
M-3	Positive	M-11	Positive	M-19	Positive	M-27	Positive	M-35	Positive
M-4	Positive	M-12	Positive	M-20	Positive	M-28	Positive	M-36	Positive
M-5	Positive	M-13	Positive	M-21	Positive	M-29	Positive	M-37	Positive
M-6	Positive	M-14	Positive	M-22	Positive	M-30	Positive	M-38	Positive
M-7	Positive	M-15	Positive	M-23	Positive	M-31	Positive	M-39	Positive
M-8	Positive	M-16	Positive	M-24	Positive	M-32	Positive	M-40	Positive

Test results is "Positive", Y chromosome-specific regions' markers were "detected".

檢測結果為「陽」，顯示在樣本中「驗出」Y 染色體基因物質。
